OBJECTIVE

Full Stack Developer | Python, FastAPI/Django, Node.js, ReactJS, Next.js, TypeScript

PROFESSIONAL SUMMARY

Full Stack Developer with experience in frontend development (ReactJS, Next.js, TypeScript) and backend, currently focused on Python (FastAPI/Django) with solid knowledge of Node.js for building modern APIs. Experienced in cloud environments, REST integrations, CI/CD, scalable systems, component-based architecture, and clean code best practices. Strong background in developing high-performance user interfaces, API integrations, and end-to-end solutions.

EDUCATION

- **Associate Degree in Web Design –** FIAP – In progress (Expected Graduation: 2026)
- **Associate Degree in Systems Analysis and Development** – FIAP – Completed in 2024

PROFESSIONAL EXPERIENCE

TopSaúde Hub – Backend Intern | Sep/2025 – Jan/2025
- Supported the analysis, development, and maintenance of systems using PL/SQL for data manipulation in relational databases (Oracle and SQL Server);
- Assisted in the development and maintenance of web applications using .NET Framework/Core, C#, ASP.NET, and MVC under team supervision;
- Performed bug fixes and system improvements following coding best practices;
- Used Git and CI/CD pipelines, participating in release cycles and version control;
- Utilized and integrated AI tools (LLMs) to accelerate development, learning, and code quality improvement;
- Assisted with REST API integrations, relational databases, and cloud services, following security and performance best practices.

BASF – Junior Information Analyst | Jan/2024 – Jul/2025
- Developed high-performance, responsive landing pages using ReactJS and Next.js, applying UX/UI concepts and CSS3 animations aligned with digital marketing campaigns;
- Implemented automations using Power Automate and Python to optimize repetitive tasks and content approval workflows;
- Designed promotional campaigns focused on gamification to increase engagement across e-commerce platforms;
- Managed and optimized multiple South American e-commerce platforms using Zoey, focusing on performance, cross-browser compatibility, continuous maintenance, and optimization based on Core Web Vitals;
- Used tools such as Google Lighthouse for web performance monitoring;
- Participated in structuring and developing reusable components focused on design systems;

- Integrated REST APIs for data consumption in internal dashboards;
- Collaborated with UX/UI teams to ensure accessibility and usability across interfaces;
- Implemented version control and collaboration practices using Git and GitHub Pull Requests;
- Assisted in mentoring interns, promoting clean code practices and PR reviews;
- Developed and maintained Zoey platforms, landing pages, and custom pages;
- Managed Zoey platform integration with SAP via CDIX;
- Built reusable UI components using ReactJS;
- Collaborated with multidisciplinary teams to ensure delivery quality.
  .

BASF – Digital Platforms Intern | Oct/2022 – Dec/2023
- Provided technical support to clients via Livechat, focusing on user experience;
- Managed e-commerce platforms using Zoey, performing updates and continuous improvements;
- Developed pages and features using HTML, CSS, JavaScript, and ReactJS;
- Collaborated in agile squads throughout the full development lifecycle, including testing and deployment;
- Assisted in code standardization and technical documentation.

TECHNICAL SKILLS

Backend & Databases:

- Python | FastAPI | Django (Basic/Intermediate)
- Node.js | Express.js
- REST APIs
- PostgreSQL | MySQL | MongoDB
- Testing: Pytest | JUnit

Frontend:

- ReactJS | Next.js | TypeScript
- HTML5 | CSS3/SASS | JavaScript (ES6+)
- UX/UI Design | Figma | Accessibility

DevOps & Tools:

- Git/GitHub | Azure DevOps | CI/CD
- Power Automate | Zoey Platform
- Azure Cloud

COURSES & CERTIFICATIONS

Languages & Frameworks:

- Python for Backend – Alura

- FastAPI / Django – Alura
- Advanced JavaScript – Alura
- Node.js – Alura
- ReactJS with Node.js Full Stack – Alura
- Advanced React – Alura
- Next.js
- Next.js: React Framework for Production – Alura
- ReactJS and Next.js – Modern Front-end Development
- SASS – Advanced Styling
- Git and Code Versioning
- Core Web Vitals and Web Performance Optimization
- State Management with Redux and Context API – Alura

Tools:

- Power Automate
- Agile Methodology
- Zoey Platform
- Vite
- Azure DevOps
- Azure

Design & UX:

- Design Thinking – FIAP

LANGUAGES:
- **English** – Advanced (Cultura Inglesa – 2022)
- **Spanish** – Advanced (Exchange Program – Santiago, Chile – 2024)

AWARDS & RECOGNITION

2nd Place – Concentrix | Google Active Life Cup (NEXT 2025 – FIAP)
- *"Etzinho" Project*: mobile self-care and mental health application developed with React Native, integrating AI to support physical and mental well-being.
